TEAM HAS FINAL PRACTICE IN A DRIVING RAIN TODAY

High School Team Ready For New Castle Tomorrow, Though Collectively It Is Not In Best of Physical Condition

THEY GO TO GREENSBURG

Quartered There Until Tomorrow Morning — Four Special Street Cars Provided For; Time of Departure—Westinghouse Co. Will Phone Score

The final practice for the New Castle game was held this morning in a driving rain. The team will embark for Greensburg this afternoon at 2 o'clock, where they will be quartered until tomorrow morning. They will lunch tomorrow at Teen, and go directly to the team's dressing quarters, where they will rest until game time.

The condition of the team is not as good as it has been this season. The line, in particular, suffering from minor injuries that have not readily responded to treatment. DeHamant will not be allowed to play. His case is too serious to run any risk His presence on the line would have been a big help, but Wildman has been doing fine work and fans are not worrying about the center position. The backfield is in good shape and will give a good account of itself Twenty-seven men, including coaches and Student Manager Berryman are making the trip to Greensburg.

Arrangements for four special cars have been completed. The Athletic Association guaranteeing them. The first car leaving Fifth street, and McKean avenue at 10.30, is for students, as it has been requested by them that they have a car to themselves. However the car will not be held up for students after 10:30 After that it will be a case of "first come, first served" The second car will leave at 10 45; the third, at 11, and the final car at 11 10. These cars will take the patrons to Carnegie Bowl, and will remain there until after the game is over. Round trip tickets will sell at $1.25 to both students and adults and may be purchased at Piper's Pharmacy, while they last. This is probably the most desirable way to reach the field, and it is hoped that the cars will be filled.

Cadigan, of Syracuse University, will act as umpire at tomorrow's game, it was agreed yesterday. A pep meeting was held at the high school assembly this morning under the direction of John Hill, '24, aided by "Jim" Russell, "Skeets" Warterson, and Benny Trnavsky. Several new yells were practiced and the students responded exceptionally well.

Let every person who can possibly attend the game tomorrow, do so, as Charleroi High School has achieved something this season that no other team in the Monongahela Valley has

YEAR IS MARKED BY A NUMBER OF DISAPPOINTMENTS

Inability on the part of the members of the Charleroi Fire department to put on the Community Christmas tree, is not the only disappointment that has been meted out to the people of this borough and contiguous territory this year To summarize: the tree, the Exposition, and the poultry show.

In the latter two, the failure to stage them was due to the fact that no building could be secured in which to hold them. Strenuous effort will be made next year by the local promoters to overcome this; maybe, by the purchase of a structure; for it is known that considerable disappointment accrued by their non-holding

It may be said in this connection that it was thought possible to put on the poultry exhibit this month, inasmuch as the paraphernalia is here; but despite the efforts of James T. Heffran, and Mr Gregg, no building or room could be secured in which to hold it

By recent action of the county commissioners the contract can be let when it is deemed advisable. AWARD MADE IS UNACCOUNTED FOR

Donora Justice Asked to Unravel Tangle, And Learn Why Money Not Sent to Widow And Family In Czecho-Slovakia

THE AMOUNT IS $2,000

Made By the Pittsburgh and Lake Erie Railroad Company —While In Its Employ George Karaman, Met With An Accident Causing Death

Through the police department of Monongahela, Justice of the Peace Albert Erdelyi of Donora, is in receipt of a letter, which had been addressed to the Monongahela police, asking for certain information concerning an award of damages amounting to $2,000 which the Lake Erie railroad had made in the death of a man named George Karaman. The letter was written by Dr Balas Bela, an attorney, of Smina Checko-Slovakia, who says he repesents the widow and family of the deceased, and on whose account damages were awarded.

From the letter now in possession of Mr Erdelyi, it appears that one George Karaman came from Checko-Slovakia to the United States several years ago and took up a residence in Monongahela, leaving his wife and family in Europe. He secured employment with the P. & L. E. railroad, and while in the employ of the railroad company met with an accident on July 30, 1915, which resulted in his death. From the letter, it would appear that the family of Karaman was not informed of death of the husband and father until 1922 the information coming through a friend of the deceased.

In the meantime it appears that a claim had been made to the railroad company for damages, and from what Dr Bela says in his letter, the case was in charge of a Pittsburgh attorney, named David Kelly or Reilly This claim it seems was paid in full but according to information from Dr Bela only $6 was turned over to the widow. The attorney is alleged to have told a friend of Karaman, who evidently was assisting in pushing the claim for the widow, that as the United States was at war at the time with Germany it was not safe to send any large amount of money abroad. However, he said $6 was sent to the widow, which amount she received.

Now an effort is being made to collect the balance of the award, amounting to $1,994.00 from the attorney, if he can be located. It was with a view of finding out something about the attorney that the letter was sent to the police at Monongahela, who in turn gave it to Mr. Erdelyi, who knew Karaman while he was living in this country.

Morrison and F. S. Montgomery, was appointed to arrange for it and this committee invited the other ministers and lay delegates to meet in the study of the Washington Avenue Presbyterian church last evening to arrange the details.

Minors Know How To Put On Tariff In Players' Matter

Convinced that the minors are determined more than ever to force their ups to mind their own affairs and likewise to come across with stiff prices if they wish to purchase star players, the club-owners of the two major loops and their managers who have been hunting bargains at the annual meeting of the National Association of Professional Baseball Leagues silently evacuated Connecticut's capital city, Hartford, last night, at the close of the yearly conclave.

Virtually all the magnates from the majors boarded trains for New York, where they will engage in their mid-winter powwows next week. A number of the men who had failed to complete dickers for youthful prospects said adieu early yesterday morning with the idea that they might be able to strengthen their teams by negotiating among the members of their own class. Some of the minor moguls of higher rank accompanied the delegation to the big town.

Zip Sloan, the big Pittsburgh pitcher who was sent to Hartford by the Boston Americans and worked in the box, played first base and in the outfield for the Hartford club may figure in a deal which will take him to New Orleans and give him a chance to get back into the big show as a member of the Cleveland club. Again controls the Pelicans. The only thing that is blocking this deal is Sloan's refusal to accept terms unless he is paid a bonus, which he insists had been promised for his efforts in the Eastern League.

Zivic Risks His Future In Bout Monday With Goldman

Those who sought to lay the blame for Jack Zivic's actions in his recent fight with Nate Goldman at Motor Square Garden upon his manager, Billy Bronson, will have to look for another excuse Monday when these two lads meet again to settle definitely the argument which arose a few weeks ago when Zivic was declared the winner over Goldman on a foul in the third round. Word was received here yesterday that Bronson would not be in Zivic's corner Monday night and that Jack would be handled by Pittsburgh seconds.

Depriving a fighter of his manager or chief second might be a blow to the ordinary fighter but Zivic is determined to carry on alone against Goldman to prove that he is master of the slugging Philadelphia southpaw.

Zivic's work this week in the Pittsburgh gym convinced everyone who saw him that he will be right and ready to take up just where he left off. Goldman is due to arrive today and will work out in public Saturday and Sunday.

The preliminary card for the bout is one of theb est sprung in a long time, the matching of Johnny Moore and Irish Chick Rodgers in the eight round semi-final insuring one of the greatest bouts of the year. Rodgers is doing a comeback after a two year layoff and looks to be back to his old form while Moore, who started well in Pittsburgh and then went back to Youngstown, is confident that he can repeat the form which made him talked about after his debut. Young Penno of McKees Rocks, meets Mike Fedorsik of Donora in the second bout while the opener brings Joe Novak and Davy Davies together.

BURKE WINNER OVER SIKI IN POOR CONTEST

Jack Burke of Pittsburgh was the winner over Battling Siki, the Singular Senegalese, in a slow and uninteresting 12-round contest in Gotham last night. Burke's defensive tactics, combined with a spirit to bring the colored fighter into exchanges, seemed to be the only two things which gave him the decision.

The bout opened tamely and remained so far for a lengthy part of the 12 rounds. In the opening round Burke got away to a fast start by landing two efts on the battler's face. Another right to Siki's jaw sent the colored lad back to the ropes. Siki then let loose with several rights and Burke backed way. For the next four rounds Burke maintained his lead and several times shook the colored lad severely sending him back on his heels.

Burke jabbed his way through the sixth, seventh and eighth rounds, but did no serious harm to Siki. Both looked as if they were not in good shape and the crowd was becoming restless in watching the two big men plough their way through each round. Siki suddenly took an active interest in the proceedings from the ninth round on and fought his hardest in these last four rounds. Siki landed two rights on Burke's jaw and then followed with a left to the pit of the stomach which caused Burke to back away and keep out of danger. Siki rushed Burke around the ring and finally got him in a corner and sent a straight left to the body. Burke turned and got out of this position and then tore into Siki with lefts and right jabs just as the bell sounded. In the tenth and eleventh rounds, Siki had the best of the milling, especially in the close exchanges. The final round produced no new stunts and they both went along easily, with Siki having a slight margin over the Pittsburger in this round. Burke weighed 179 and Siki 172.

ever achieved, and their efforts along this line should be given the full support of every loyal citizen in the borough. Charleroi, entering the game the underdog, should be given support not only from the student body, but citizens as well.

Under date of yesterday, Burgess J. Bryant Tussing is in receipt of a comunication from P. A. Boyd, Manager, Pittsburgh Post Studio, KDKA, in which the gentleman acknowledges receipt of a favor from Burgess Tussing, and also the petition signed by a great number of friends of the radio company in the Monongahela valley, requesting that Station KDKA of the Westinghouse Electric & Manufacturing Company broadcast, play by play, the Charleroi-New Castle Football game direct from the field.

In his letter to Mr. Tussing, Mr. Boyd goes on to say that he regrets, owing to a very important program, the celebration of the fiftieth anniversary of the Pittsburgh Chamber of Commerce at the time of the contest, that the company will be unable to broadcast the game as requested, play by play; but that he has arranged with the Pittsburgh Chamber of Commerce to announce the scores, at intervals. Mr. Boyd states in his communication that he will have a man at Tech Field to telephone the score to the company's announcer in the Chamber of Commerce building.

Burgess Tussing also informed us as stated in yesterday's Mail, that he has arranged with the Pennsylvania Railroad company for two special cars on train due here northbound at 9:44 o'clock; and two special cars on northbound train due here at 10:22 o'clock. These coaches will be locked until they arrive here, and will be opened for the use of Charleroians, and people of this locality desirous of taking train route for the big game.

OIL STOCK SWINDLER KORETZ PREPARES FOR HIS SENTENCE

Chicago, Dec. 5—Broken in health, crushed in spirit and with less than $5 of his $2,000,000 left, Leo Koretz, oil stoc kswindler, today prepared to start serving his prison sentence of one to ten years imposed by Chief Justice Hopkins.

Sentence was one to ten years on each of three indictments of larceny in connection with his swindling operations, the terms to run concurrently. Physicians indicated Koretz would not live more than six months as he is suffering from an advanced case of diabetes and other ailments.

Justice Hopkins declared that in view of Koretz's illness, his refusal to fight extradition from Halifax and his plea of guilty, the ends of justice would be served if the sentences would run concurrently.

Koretz accepted his sentence calmly. He grinned wanly and said he was ready to go. He will be taken to the Joliet state penitentiary late today or tomorrow, state's Attorney Crowe said.

Eleven monhs after he enters the jail, Koretz will be eligible for parole. However, such sentences usually run six and a half years Crowe said, unless unusual circumstances develop.

If Koretz lives to serve out the term the federal government will be waiting for him with warrants charging evasion of his income tax and using the mails to defraud.

COOLIDGE PREDICTS PROSPERITY IN YEAR OF 1925

Enroute with President Coolidge, Garrett, Ind., Dec. 5.—President Coolidge was speeding back to Washington today after a strenuous 13-hours in Chicago during which he made two speeches and inspected the International livestock exposition.

It was Mr. Coolidge's first trip to the west since he became president, and his first speech to a middle western audience since he entered the White House.

While both his speeches were devoted largely to agricultural interests, Mr. Coolidge, without mentioning the league of nations or the world court, urged a world wide cooperation for peace and predicted a wave of prosperity for the coming year.

POLICE FORCE BALL WELL ATTENDED, AND IS SUCCESSFUL

One of the most successful of the early social events for the winter season took place last night at the Italian hall, when the Charleroi police force held their first annual ball. The affair, which has been looked forward to with great anticipation, was a marked success, the large auditorium being crowded to its capacity. One hundred couples from Monessen, Donora, and Charleroi were present. The local police force, under the direction of Chief James A. Murphy, left nothing undone toward making the affair one long to be remembered and efforts are being made to establish this affair as an annual one.

An added attraction of the evening was a solo by John McFeeley, who as usual pleased his auditors. He was called upon for several encores. Music for the occasion was furnished by the Harlem Harmony Boys orchestra.

The Christmas Seal of 1924 depicts knowledge, represented by a woman, enlightening the world as to the dangers of tuberculosis. Resting her hand upon the shield of a double-barred cross, emblem of the citizen tuberculosis societies, she indicates she is defending the world against tuberculosis. This is a happy symbolism of the tuberculosis movement in its preventive activities. It is considered the most beautiful Seal issued during the seventeen years the Christmas Seal has been sold.

Buddhism Old Religion

There are so many points of resemblance between Buddhism and Christianity that many have believed that Buddhism was an attempt to copy that religion. Most Oriental scholars agree, however, that it arose in the north of Hindustan between 500 and 600 years before Christ.

Paid Fancy Prices

"I paid an international authority on diseases of the stomach $1,500 and he didn't do me five cents' worth of good. I have been to various Spas in Europe, as well as this country and have spent fully $30,000 fruitlessly in search of a cure for my stomach trouble. Naturally I lost faith in any remedy for my case. My wife's brother had taken Mayr's Wonderful Remedy, and praised it so highly that I tried it and am now entirely rid of that trouble." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded.

ACTION COMMENDABLE.

Council's action Tuesday night at its regular monthly meeting in instructing the chairman of the councilmanic committee looking after group insurance for the firemen to proceed and close for the policy, was commendable.

The relations between council as a collective body, and the firemen, as a collective body, are of the most cordial nature, each striving to assist the other in measures which mean Charleroi has a fire department second to none in the state, is willing to go to extremes in assisting the membership. This group insurance for the firemen will come in handy when any of them are sick, injured; or, perchance, when any one of them answers the call of the Great Judge.

THE OFFICE CAT

Just think of all the pretty white cigarettes that are stained by painted lips.

The girls in an office building down at Monongahela got together and signed a paper agreeing they wouldn't marry any man making less than $500 a month. Then they found out there are not that many plumbers in the state.

We never realized how time was flying until a very good friend failed to invite us to a social gathering the other night because we were too old.

Taking No Chances.

Star Customer—Here's three dollars.

Grocer—But you don't owe me anything.

Star Customer—I know it, but when my wife buys a $2 box of cigars for a present for me, just make it a $5 box—see?

Another thing that plays havoc with our illusions is the sight of a powder-rag after it's been used on what looked like a perfectly clean girl.

I don't understand. He is not a lawyer, but the office boy let a man in to see him as soon as he had said, "I have two cases for your boss."

The kiss that friend wife bestows upon us when we return home late in the evening may be affection and again it may be investigation.

An Ode to Santa.

I hate to say it just because
It sounds so mean and shocking;
But nature beat you, Santa Claus,
At filling Peggy's stocking.

Vell, Abe, how vas your going-out-of-business sale?

Fine. I think I have anudder one shortly.

Irate Father—Why did you run away with that lawyer?

Daughter—Father, dear, didn't you tell me always to follow your counsel?

What the Japanese need is something like bobbed hair to take their minds off emigation.

You are acquitted, the judge finally announced.

The prisoner thought he should say something, so he spoke to the jury.

"Gentlemen, I'm sorry to have given you all this trouble."

Correct this sentence: Babe Ruth smacked the newspaper man right in the eye when he tried to take Babe's picture.

That girl is strong for Indian gifts.

What do you mean by Indian gifts?

Taking back what she gives you.

Well, what particularly?

Kisses.

Some Last, and Some Don't.

Where are the flappers of yesteryear?

Some of them now are scrapping, with cooks who are eager to change

Nurses who want their evenings

And some of them still are flapping.

A Christmas Sales Idea.

Vendor—Buy a Christmas tree, buy a tree and make the children happy.

Old Maid (blushing)—Sir, I have no children.

Vendor—Buy some mistletoe, lady!

Nice mistletoe!

This formula has been used in Hypo-Cod in liquid form for years, and thousands have been benefited by it. Hypo-Cod Tablets have been introduced as a more economical and practical way to take this phenomenal health builder.

Another Charleroi Case!

Time-tested by a Charleroi Resident.

Just another report of sickness and suffering relieved by Doan's Pills. Another Charleroi case that tells of lasting benefit. What can be more convincing? Thousands recommend Doan's for backache, rheumatic pains, headaches, dizziness, and distressing urinary disorders. Doan's are a stimulant diuretic to the kidneys. They have helped thousands and should help you. A Charleroi case.

Mrs. B. J. White, 130 McKain Ave., gave the following statement December 19, 1918: "I shall never forget how my back pained when I had kidney trouble. I had such dizzy spells and headaches I felt miserable. Mornings I felt lame and stiff. My kidneys acted irregularly. Doan's Pills rid me of the trouble."

On March 15, 1922, Mrs. White added: "I have had no occasion to use Doan's since they cured me sometime ago."

The Missionary Pageant to be given next Wednesday evening is postponed until the following Sunday evening, December 4. The participants at yesterday's function felt that it was an afternoon well employed, and adjourned to meet again on January 8, 1925.

Peacock's Dignity Is Ruffled by Sparrows

Washington.—The disguised setting of Whistler's famous "Peacock Room," in the Freer building, was shattered recently when about forty sparrows attacked a young peacock strutting about the courtyard.

It happened when the three big peacocks, who add tone and color to the central court, left the young bird eating out of an earthenware jar. The fledgling was helpless against the sparrows that surrounded him, cheeping angrily. Finally he decided to retreat and tried to retain some shreds of dignity by strutting off. The sparrows, however, circled about him, flapping their wings and nipping him with their beaks. Around and around the fountain he ran, desperately frightened.

One of the older peacocks saw the trouble from a distance and came to the rescue. Spreading his magnificent plumage, he charged the sparrows and they scattered, flying away in all directions.

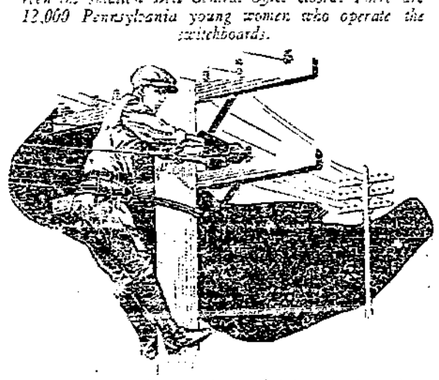
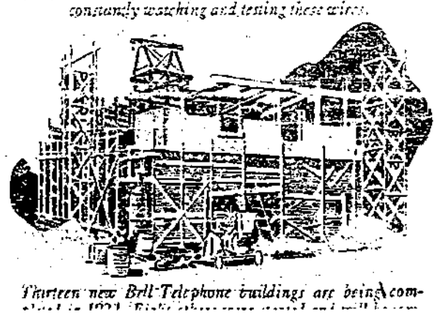
The Telephone Service Job—

Not for one instant, day or night, holiday or weekday, is even the smallest Bell Central Office closed. There are 12,000 Pennsylvania young women who operate the switchboards.



Practically every highway has its Bell lines for furnishing service to the rural dwellers, and for connecting cities and towns with Long Distance wires. Hundreds of men are constantly watching and testing these wires.



Thirteen new Bell Telephone buildings are being completed in 1925. Besides, ten major additions to other buildings were finished.

THE handling of your own calls, perhaps the ten or a dozen made each day from your residence telephone, seems to you to present no great problem. "One telephone, one pair of wires, and an operator to do the switching!"

Multiply that telephone by nine hundred thousand. Multiply that pair of wires by 910,000 other pairs. Multiply that operator by 12,000 other operators. Add 468 buildings, 6,000 switchboard positions, 3,400,000 miles of underground and aerial plant, and 11,000 construction and maintenance men, engineers, accountants and clericals—and you have the recipe for furnishing Pennsylvania's telephone service.

But volume is not the all-important element. Nor the fact that it is a twenty-four-hour-a-day job, seven days a week. Complication presents the big difficulty.

Each subscriber at any second may call any one of the thousands of telephones in his exchange, or any of the 900,000 elsewhere in the state, or beyond. His every call comes without advance notice. 900,000 "talk tracks" must be open for him at all times, regardless of distance and without detour or delay.

It's a big job.

FAKE FURNITURE IS NEWEST OF SWINDLES

Seekers After Antiques in England Are Duped.

London.—Of the making of many different kinds of fakes there seems to be no end.

There have been faked pictures ever since artists first began to use paints. There are so many faked Rembrandts in existence that few prospective purchasers will complete a deal for one of the great Dutchman's works without consulting an expert.

Just now an unusually active business in faked furniture is reported.

"This is an age of faked furniture," said the proprietor of a West End gallery. "One comes across it everywhere. It is certainly more plentiful than genuine furniture.

"Most of it is sold in the first place for what it is, accurate imitation, but later it comes into the market in the ordinary way to be sold as the real thing. Some of the modern faking of Jacobean furniture is so good that it frequently deceives experts.

"The number of Tudor tables which are on the market is enormous. There is about one for every six houses of Tudor days. Of course, most of them are clever fakes."

A favorite device of the fakers just now is to plant their reproductions, carefully matured and dust-covered, in rural English homes, where they are eagerly snapped up by unsuspecting purchasers who go through the countryside looking for antiques.

But It Can't Be Done

The Eskimo dog averages from 20 to 40 miles of travel a day. Polar bears, if they could be trained to pull sledges, would make about 100 miles a day.

Good bakings are becoming a matter of fact in this country. Years ago, the woman who had success on bake day was rare. Now, most anyone can be proud of their bakings,—the young bride, the school-girl and all.

Calumet Baking Powder has made all this possible, it is sitting on the pantry shelf in millions of homes, that's the secret of baking success—the real reason for uniform and wholesome food.

CALUMET
The World's Greatest
BAKING POWDER

If you are among the few who are not familiar with the results obtained from using Calumet, try it—learn the difference between the results that come from using a perfect leavener and those that are experienced when using unreliable brands.

To follow the directions on the Calumet label is to invite success. You must not use as much as you do of many other kinds. You know Calumet has greater leavening strength than many other brands—it goes farther—makes more bakings—the last spoonful is as good as the first.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

FOREST CHIEF TELLS OF HAWAIIAN BIRDS

Describes Visit to the Bird Forest.

Honolulu—One of the attractions of the territory of Hawaii is the bird forest in the Hawaiian National park. A visit to the spot is described by Charles Kraebel, assistant superintendent of forestry of the territory. The forest is known locally as "Kipuka Puaulu," which means "An oasis of flowering trees."

The trail to the bird forest leads from the Volcano house [illegible] of the crater Kilauea, past sulphur banks and steam cracks, and along the path of Mauna Loa through a low growth of Hawaiian heather and scrubby trees until open forests and smooth turf meet the eye. Two ancient peach trees stand at the threshold of the forest. Describing the scene, Mr. Kraebel says:

"Two flashes of red across the green branches are seen. It is the birds, the scarlet iiwi and the crimson apapane, darting from tree to tree, and pausing among the flowers of the ohia to obtain food from the bright red blossoms. They are almost instantly lost to view, and the keenest vision is needed to distinguish their brilliant bodies from the equally brilliant ohia flowers. Pluming a bird in red in order to protect it seems to be a paradox of nature when the bird is compelled to seek its own protection among the red flowers of a red tree.

Endless Twitter.

"An endless [illegible] of birds sweets and longer notes in which is heard the sweet, insistent song of the apapane, the clear ta-weet, ta-weet, ta-weet oh,' of the iiwi with its remarkable flute-like quality and a whistle of the elepaio, repeating at intervals the syllables of its native name, and always quaintly accenting the 'pa.' Another timid 'ta-weet,' distinguishable through all the other bird songs is the call of the amakihi, the fourth of this quartet of birds most commonly seen in the volcano region, a little greenish-yellow chap, quite inconspicuous in the forest.

"Generations ago, when taxes on feathers were levied by the native chiefs, an accurate knowledge of the birds was a real essential to life, liberty and the pursuit of happiness for the Hawaiian.'

Mr. Kraebel says the most friendly of the four native birds now seen in the Kipuka Puaulu is the elepaio, which is wren-like in the boldness of its approach in satisfying its curiosity concerning forest visitors, wren-like again in the flirt of its fan-shaped tail and the tilt of its saucy head. Mr. Kraebel further describes the bird:

"In spite of these forward qualities, which would seem to expose such a bird to more rapid extinction than its fellows, the elepaio has not only resisted contact with civilization, but has adapted itself to changed conditions and has multiplied as so bright and self-reliant a bird should do. The elepaio is garbed in a modest brown coat, which no one ever cared to use for capes and other royal habiliments of the native chiefs, and so long as there were bugs to eat, the little flycatcher continued to thrive and grow bold, while his neighbors, the black mamo and the black o-o each unfortunately blessed with a few tufts of yellow feathers, have long ago been [illegible] for royalty.'

Some Varieties Extinct.

Mr. Kraebel says the extinction of some birds has been due in some cases through the inability to obtain the highly specialized food which they required. He believes that through centuries of evolution certain birds developed especially constructed beaks suited only to drain nectar from certain flowers, or to crack the seeds of particular trees, and when these trees were unable themselves to resist the march of civilization and finally disappeared the birds which depended upon them for subsistence starved to death. He says:

"A few species for no apparent cause, have simply grown less and less in numbers, until today they are no longer found. Domestic cats gone wild have been responsible for the extinction of other species. Thus in various ways the total number of indigenous bird species in the Hawaiian islands has dropped from 56 to 36, and of these three dozen species many are so rare that they are seldom seen.

"In spite of this fact the common impression absorbed by the stranger in Hawaii, that 'there are no more Hawaiian birds' is erroneous. Excepting the shore birds and [illegible] water loving land [illegible] most of our native birds are today as they have always been confined to the densely forested regions. It is for this reason that so few people are able to see the birds at all, or to become acquainted with [illegible] than the four whose habitat [illegible] near the volcano.

"Let the bird lover be consoled, for nowhere are the native birds more numerous and nowhere in the territory will the enthusiast find [illegible] Hawaii than here in the Kipuka Puaulu."

Actors in Germany Idle

[illegible] of every 1,000 actors and actresses of the Berlin theaters are without jobs this fall. A great many of the play houses are closed.

The situation in filmdom is also in the dolorums.

Occasionally one finds, in solving crossword puzzles, that in order to reach a happy ending, he must misspell a word or attach to it a meaning that doesn't quite belong. The unfeeling brute, we suppose, puts them in just to make it harder.

TO CLEAR SNOW FROM ROADS WITH CHARGES OF T. N. T.

Eses Park, Colo., Dec. 3—Fall River road, over the Contiental divide near here, may be cleared of the ice and snow which block it in the spring by pressure on a single electric button, instead of by the work of scores of men over weeks of time.

A cordeau fuse, encased in a tube of lead, has been laid along the entire route of the road through Milner pass and arrangements made to detonate the separate charges of TNT, comprising the fuse, simultaneously.

Fall River road one of the highest mountain roads in the United States, usually is packed with ice and snow until midsummer, despite the work of clearing crews throughout the spring.

The force of the explosion, according to forest rangers, will do no more harm to the road than the melting snows have done in the past. Repair work on the road has always been necessary.

In places where experience has shown snowdrifts accumulate the worst, the cordeau fuse has been augmented by charges of dynamite at 20-foot intervals. In this manner, it is hoped to rid the road of 25-foot drifts, which in the past have kept it muddy during the greater part of the summer.

The free ends of the fuse have been securely fastened in tree tops at both ends of the pass, awaiting electrical connection in the spring.
